Colour-matched wood preservative for cuts in treated wood

Uses

For use on **Above Ground** treated wood products. Use Cut-N-Seal® on areas that have been drilled or saw cut in treated wood deck boards, railing, post tops, fence boards, etc.

A 946 ml can will protect approx. 330 5/4x6 deck board ends or approx. 220 2x6 deck board ends, coated twice.

Cut-N-Seal does not replace pressure treatment.

Do not use to recoat pressure treated wood surfaces.

Do not use for pressure treated wood in ground contact applications or in preserved wood foundations.

Application

- Pressure treated wood should be dry and clean.
- Cut-N-Seal is ready to use – do not dilute.
- **Keep from freezing.**
- Stir or shake contents before and during use.
- Apply a first coat by brush, allow to absorb, and apply a second coat. Apply above 5°C (40°F).
- Clean equipment (brushes, etc.) with soap and water.
- Dispose of empty container in household trash.
